Darjeeling First Flush 2020

- from organic cultivation -

©somjork - www.freepik.com

Dear Tea Lovers and Friends,

Just before the shutdown in India, we were able to secure some very excellent first flush Darjeelings. We are delighted to announce that they are now arriving in our Hamburg warehouse and we are ready to take your special orders for express delivery to the US!

*** Please order by JULY 3rd, 2020, for mid-July delivery! ***
Limited quantities available!

Supply of first class Darjeelings will be very limited this year due to the long shutdown in the origin and prices are expected to be higher for the few good batches that were produced before there was a complete standstill.

However, we can also report some good news concerning the first flush season 2020. The prevailing weather conditions were ideal, there was sufficient precipitation in the weeks prior to the harvest and it was only marginally cooler in some regions. The quality of the teas we received from the selected plantations is just like we hoped for.

Please see below for a detailed description on each specialty and look forward to enjoying your first cup of freshly picked Darjeeling this year!

Sincerely,

Your Dethlefsen & Balk Team

MONTEVIOT DJ1/20

FTGFOP1

NEW
ORGANIC

2020-1
PU 2.5 kg original case

DESCRIPTION

The Monteviot Garden is located in the southern Kurseong valley of Darjeeling and was founded in 1856. The leaves' intense green color with silvery tips indicates its fresh, soft and flowery temper. Full aromatic body with floral touches and a light sweetness.

KEY FACTS

Altitude: approx. 1,700 m

Leaf: medium-sized, dark Sinensis leaf with many tips

Infusion: olive-green, fragrant

Cup: light amber color

Flavor: fresh, flowery, mild sweetness

 4-5 min.

 203-212°F

 1 level tsp. / 6 oz. serving

POOBONG DJ1/20
SFTGFOP1

NEW
ORGANIC

18214
PU 1 box of 2 kg

DESCRIPTION

Poobong, founded in 1913, means “Valley behind the clouds”. While its size is neglectable in comparison to other gardens, its quality is striking.

KEY FACTS

Altitude: 1,00 - 1,500 m
Leaf: medium-large, dark, slightly twisted leaf with tips
Infusion: light green, flowery scent, nice leaf structure
Cup: brilliant, light brass color
Flavor: fresh, smooth with hints of fruit

 4-5 min.
 203-212°F
 1 level tsp. / 6 oz. serving

Black Tea · Darjeeling
AVONGROVE DJ1/20
FTGFOP1

NEW
ORGANIC

18215
PU 1 box of 2 kg

DESCRIPTION

The tea garden Avongrove lies within a picturesque countryside with view of the river Balasun. A large portion of China and China Clonal shrubs forms the base for fresh, lightly flowery first flush teas.

KEY FACTS

Altitude: 1.200 - 1.800 m
Leaf: light green, medium-sized, slightly open leaf, silvery tips
Infusion: brilliant green, fresh
Cup: clear, lightly golden colored
Flavor: flowery, vibrant, fresh

 4-5 min.
 203-212°F
 1 level tsp. / 6 oz. serving

Black Tea · Darjeeling
STEINTHAL EX1/20
SFTGFOP1

NEW
ORGANIC

10327
PU 1 bag of 10 kg

DESCRIPTION

Located at the foot of the Himalaya Mountains, this tea plantation was founded some 130 years ago by a German missionary and is, thus, one of the eldest tea plantations in Darjeeling, producing finest organic teas.

10327-1
PU 1 kg

KEY FACTS

Altitude: 1,300 to 1,900 m
Leaf: wiry, long, Oolong-like leaf, some silvery tips
Infusion: olive-green, muscatel
Cup: golden shining
